Eliminate guesswork and human error. Automatic weighing speeds up your weighing operation and with on-board printers this give you a permanent records.

Eliminate downtime

Heavy Duty weight sensors and a rugged electronic indicator.
No moving parts, electromechanical devices or hydraulics to adjust or service.

Convert your existing fork lift truck

EuroScales THOR Weigh Forks are designed for standard ITA Class IIA/B and Class IIIA/B cleat type lift trucks.

Easy Installation

Install by hooking directly to the existing carriage
The Thor design enables the rapid transfer to other forklifts should this be required

Industrial Thermal
Label Printer.

DISPLAY AND PRINTER OPTIONS

The Thor Forklift Truck Scale is resistant to shock and vibration in heavy-duty conditions. Applications include inventory, stock control, instant checking of incoming goods, in production for measuring raw material, filling and dispensing of liquid material, order picking by weight, and high accuracy parts counting via dual scale system. Whatever your requirements EuroScales can offer your company the right solution. Consecutive loads can be added together, which is ideal for transport companies, helping to avoid overloading. The display is designed for convenient cab mounting, is simple to operate, easy to read, and is powered off the forklifts own battery. The Thor Weighforks can be used indoors and outdoors, and the forks are designed with an ultimate overload at 500%.
