

Mud Gas Separator

TASK[®] Mud Gas Separator Specialist

The Task Products Mud Gas Separators have all been designed to safely and efficiently handle the separation and ventilation of gas pockets from within the mud systems during the drilling process. This product offers a perfect solution for all drilling processes expecting to face and handle large volumes of gas.

Key Features

- ➔ DNV-GL approval upon request.
- ➔ Efficient removal of free gas.
- ➔ Easy assembly for multiple applications.
- ➔ Highest level of safety for rig operation.
- ➔ Certification for all relevant applications.
- ➔ Adheres to drilling practices.
- ➔ Rental or purchase available.
- ➔ Skid-mounted for simple transportation.

Key Specifications

- ➔ Temperature Rating: -20 to 70°C
- ➔ Pressure Rating: Up to 15 bar
- ➔ Instrument Connection: Yes (2" ANSI 150# Flange)
- ➔ Area Classification: Zone 1 and Zone 2
- ➔ Ventline Size: Up to 12"
- ➔ Outlet Size: Up to 10"
- ➔ Design Code: ASME VIII div 1, NACE MR-01-75 & PD 5500
- ➔ Certification: PED, CE Marked, ATEX Zone 1
- ➔ Manway: 2 of 24"
- ➔ Main Body Diameter (mm/in): Up to 1400/55
- ➔ Treating Capacity (m³/h/GPM): Up to 240~320/1056~1408
- ➔ Capacity Inlet Pipe (mm/in): Up to 125/5
- ➔ Outlet Pipe (mm/in): Up to 250/10
- ➔ Gas Discharge Pipe (mm/in): Up to 200/8
- ➔ Seal Monitor: Third Party Supply Kit
